About Gloria

Gloria is a sweet girl who is eager to please. She is polite and never asks too much but is still learning to come out of her shell. She would suit a family who are keen to teach her about the big world, as she has likely not experienced much kindness before coming into our care. She will also need help with toilet training and lead walking. Gloria could live with another friendly dog or cat, or would happily soak up all the love and attention to herself. We know she is just waiting for a bed, toy basket and human all of her very own.

About Karina

Karina has likely lived a life of cruelty and unkindness before coming into our care, she is nervous, shy and very scared of new experiences and people. It may take time to build a bond and there may be some things she may never feel confident to do, like travel on a bus or socialise frequently with new people and her new home needs to reflect this. Karina may also benefit from a resident dog who is calm and relaxed to show her the ropes. Adopters will be given support and guidance from our experienced team. Further, as Karina is a pomeranian mix, her coat will need daily grooming and adopters will need to be able to accommodate for this and her frequent shedding.

About Terri

Terri was brought to our shelter along with her mum and siblings, Karma and Pippi. We do not know what their life consisted of before they came into our care so they are naturally cautious when experiencing new people or things. However, it doesn't take Terri long to come out of her shell and she proudly boasts as the most confident of the three! Like most pups, Terri loves to play, meet other dogs and is gaining confidence around new people. She will need a family who are dedicated to all aspects of her puppy training, as well as adopters committed to helping her adjust to a domestic setting.
